Jackie just emailed me-let's keep the 10th of July as the meeting date and get the newsletter submission in. We have contractor ability with EA/HDR to help with media blasts, unless both Chris and Jackie prefer to have AR do it.

Thanks!

Lynn

Hi Jackie – This is giving me mixed messages. First, you say the text is fine and you are sending me a logo and link. This leads me to think you want to try to get this in the newsletter. Then you state that you feel rushed trying to get it in the newsletter. I think the information presented below is very simple and should not be difficult for the City to get it in its newsletter as long as we can all agree on a date. Do you want me to continue to pursue the newsletter or let it go and focus on the weekly news blast and other media outlets? If the latter, which media outlets do you think are appropriate for the text below? Chris

**Community Workshop
Aerojet Area 40 Cleanup
July 10, 2018 600-800 PM
Folsom Community Center**

The U.S. Environmental Protection Agency invites you to participate in a workshop describing cleanup activities that will occur in August and September this year at Aerojet Area 40, located east of and adjacent to Prairie City Road, south of Highway 50 and north of White Rock Road. For more information before the workshop, please go to <https://cumulis.epa.gov/supercpad/cursites/csinfo.cfm?id=0901718>

I am available on the 10 & 18 July. Lynn, can you do the 10? To be clear, I don't want the city to start dictating what our plans will be for this event. We can concede to this date change only. The text is fine and I'm sending you EPA's logo and short url address separately. I felt rush trying to get the notice in the city newsletter as well. We still have the weekly news blast and their other media outlets offered. We need to meet next week to discuss the outreach schedule etc. J

Christine Brainerd called on my way back to the office. She spoke with the City Manager and they feel that rushing to a June 17 meeting is not in their best interest. She asked if we could delay. I think they were concerned about rushing to get the notice in the Folsom newsletter and were also concerned about the message in the mailer. They want some time to review the mailer and thought it was already in production. Christine was relieved that it had not gone to publishing yet. She stated she would get back to me Monday.

I mentioned that we had a fall back date of July 10 or July 18, but could probably not wait until August. Since City of Folsom mailer goes out bimonthly (June/July and August/September), we would not be able to use this tool to announce the meeting.

I think the announcement could be very innocuous, something like:

**Community Workshop

The U.S. Environmental Protection Agency invites you to participate in a workshop describing cleanup activities that will occur in August and September this year at Aerojet Area 40, located east of and adjacent to Prairie City Road, south of Highway 50 and north of White Rock Road.

If we can agree on a date that gives the City comfort, maybe we can get something like this in the mailer.

Let me k ow your thoughts. Chris
